Subject: Microsoft Anti-trust

Please reconsider your settlement with microsoft. Having been in the industry since the early 90s, I have seen them continually crush innovation. I am extremely disappointed with such an easy settlement for them. Microsoft has already succeeded at controlling the technology industry, and will continue to reach into other industries.

I am also troubled that our justice system cannot move quickly enough to move against monopoly actions until its way too late.

Thank You,

Robb Roaten
